Abstract

The term "As" at the beginning of line 1 is deleted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the invention relates to a process of making cyclic polyether compounds comprising the reaction of alkylborane and cyclic ketene acetal phosphate in the presence of basic solution and PdCl₂(dppf). The closest prior art of Sasaki et al., Org. Letters, (1999), Vol. 1, No. 7, pp 1075-1077, discloses a similar process but the catalyst is Pd(PPh₃)₄.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
